

Creativity Prompt: *The Circle*

igniting your creative spirit!

Circles are everywhere if you are looking. Draw several circles on your paper. How many different things can you make inside the circle?

Supply list:

- Paper
- Drawing tools
- Your imagination

Tips: Find a round object that is about 2 inches across to trace around to make your circles. The cap of the laundry soap is a great size.

Next Step: If you want to take this project to the next step, draw another set of circles. This time make your drawing on the outside of the circle leaving the inside blank. Which way is more challenging?
